# Illegal dumping prohibited

Those who illegally dump waste are subject to imprisonment for up to 5 years or a fine of up to 10 million yen.

○ Please refrain from the following actions:

- The act of discarding and leaving behind items that cannot be collected or processed as garbage.
- Disposing of waste in locations other than designated disposal areas (such as bringing waste to local waste collection points by non-users)
- Disposing of garbage on days other than the designated collection day. (Please dispose of your garbage after the evening of the day before the collection day.)

### Regarding waste generated from business establishments

We cannot collect your waste using the garbage sticker system. Please contact one of the companies listed below to request collection.

- General waste... Licensed general waste collection and transportation companies Nikko Kajimoto seisousha ☎072-367-5553
- Industrial waste... Licensed industrial waste collection and transportation companies (licensed by Osaka Prefecture).
- Recyclable resources... Recyclable resource collection companies (No permit is required, so please find one yourself.)

### Tips for losing weight at home

#### ➡ Drain thoroughly

Approximately 80% of kitchen waste is water. Simply draining the water thoroughly will help reduce the amount of waste.

#### ➡ Reduce waste with the 4Rs

①REDUCE ②REUSE ③RECYCLE ④REFUSE

### Information on related systems

#### ① Loan system for food waste composting containers, etc. (application required)

This is a system that provides free loan of compost containers and EM bokashi containers for composting food waste.

#### ② Distribution system for volunteer cleaning garbage bags (orange bags) (application required)

This system distributes orange volunteer garbage bags that do not require stickers for cleaning waste from public land (such as street trees).

#### ③ System for issuing additional free garbage stickers due to special circumstances (application required)

This system provides additional free garbage stickers to households that are short on them due to the following circumstances, upon application.

- Households using adult diapers.
- Households with infants under 3 years old who use disposable diapers.

For both programs, the application window is the City Hall's Living Environment Group. (Please note that applications cannot be accepted at the New Town Liaison Office or the main office during Saturday opening hours.) Application ③ requires supporting documents. Please check our website for details.

### Regarding the disposal of temporary waste

#### ● Bringing temporary waste to the incineration plant

If you have any temporary waste generated due to moving or other reasons, you can take it to the incineration plant (Minamikawachi Environmental Business Association) for a fee. Please contact the number below for information on how to bring your waste and the fees.

- ※Only waste generated in Osakasayama City can be brought in.
- ※Industrial waste and materials that are difficult to process cannot be brought in.
- ※We cannot transport waste to the second waste treatment plant.
